DETAILED ACTION

1. This communication is in response to the amendment filed on February 3, 2005. After a search and a thorough examination of the present application and in light of the prior art made of records, claims 1, 2, 4 – 11, 16, 17, 19 – 26, 31, 32, AND 34 – 36 (renumbered 1 – 25) are allowed.

Reason for Allowance

2. The prior art made of records does not teach or fairly suggest the combination of Elements as recited in each of Applicant's claims 1, 16 and 31.

More specifically, prior art of records does not teach or fairly suggest, "determining if a query element is included in a set of elements comprising one or more elements from a first domain having a character set of "m" characters, wherein "Z" is the maximum possible length of an element in the first domain and "Y" is the length of the longest element in the set of elements such that $1 \leq Y \leq Z$;

using the data structure to determine if the query element is included in the set of elements such that the number of comparisons needed to determine if the query element is included in the set of elements is proportional to a length of the query element and independent of the number of elements in the set of elements". The dependent claims, being definite, further limiting, and fully enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
